

DRUG-FREE SCHOOLS AND CAMPUSES ACT

Annual Notification 2024

Annual Notification of Drug and Alcohol Policies and Programs

As a requirement of the Drug-Free Schools and Campuses Act regulations (34 C.F.R. Part 86), Syracuse University is required to disseminate drug and alcohol policies and information to all students and employees on an annual basis. The purpose of this notification is to provide the campus community with details about the standards of conduct, policies, sanctions, legal penalties and health information relating to drugs and alcohol. Questions about this information may be directed to the Office of Institutional Risk Management at 315.443.4011 or riskadmin@syr.edu.

Prevention and Education

Syracuse University uses multiple strategies to provide comprehensive education regarding alcohol and other drugs. Notable programs include the following:

- As a facet of Community Wellness Requirements, all incoming students are required to complete the following online interactive multimedia education program that covers sexual assault prevention and relationship violence, substance use (including alcohol and other drugs) and diversity, equity and inclusion. The training has three different versions, tailored to traditional undergraduate students, graduate students, and non-traditional undergraduate students and part-time students. Students must complete the training to register for classes.
- Be Wise Peer Educators (ese.syr.edu/bewell/peer-educators/) focus on educating and empowering students to make informed choices regarding the use of alcohol and other substances. This Peer Education Team is committed to making a campuswide difference through nonjudgmental dialogue.

In addition to Health Hubs and outreach programs, Be Wise Peer Educators host programs during National Collegiate Alcohol Awareness Week and Alcohol Awareness Month. For more information on these events, visit the Programs web page (ese.syr.edu/bewell/programs-and-events/).

Additionally, the Barnes Center at The Arch coordinates educational programming regarding substance use prevention for the Syracuse University community. Requests for programming are made by a variety of audiences, including, but not limited to, classes, residence halls, student groups, fraternities and sororities, and athletic teams. Programs are facilitated by Be Wise Peer Educators and trained staff members. To request a program, please visit ese.syr.edu/bewell/request-a-workshop and complete a program request form. For more information on education and prevention efforts, contact the Barnes Center at The Arch at 315.443.8000. More information regarding alcohol and other drugs prevention and education may be found at ese.syr.edu/bewell/substance-use.

From time to time during the academic year, the University may sponsor workshops or seminars and may distribute informational materials dealing with the dangers of substance abuse.

The following support and treatment resources are also available:

On-Campus Resources

- **OPTIONS Program:** Barnes Center at The Arch, 315.443.8000, syracuse.edu/bewell
Barnes Center at The Arch Counseling provides assessment, intervention, education and referral services for all full-time students who experience problems or have concerns about their use of alcohol or other drugs. Services are free and confidential. Students may self-refer or be mandated through a variety of University departments. All services are provided by certified, licensed or license-eligible therapists.
- **Syracuse University Orange Recovery Community,** Barnes Center at The Arch, 315.443.8000, syracuse.edu/bewell
The rigors of college can be challenging, particularly for students living an abstinence-based or substance-free lifestyle. For students living these lifestyles, the health and wellness team recognizes the need for programming, community and support. Built on the foundation of support, the Orange Recovery Community is a network of undergraduate and graduate students who are living in recovery from substance use disorders or currently struggling with substances.
- **Syracuse University students experiencing a mental health crisis,** seeking support for sexual assault or relationship violence, or needing medical consultation can receive free confidential services 24 hours a day, seven days a week by calling 315.443.8000.
- **Student Outreach,** 111 Waverly Ave., Suite 220, 315.443.4357, studentsupport@syr.edu experience.syracuse.edu/soar
Provides support to students in many ways, including consultation, outreach, intervention, monitoring and support plans.
- **Barnes Center at The Arch Health Promotion,** 150 Sims Drive, 315.443.8000, syracuse.edu/bewell.
Provides prevention and education essential to students' health, well-being and safety, including sexual and relationship violence, alcohol use and mental health.
- **Carebridge Faculty and Staff Assistance Program:** 1.800.437.0911, wellness.syr.edu/carebridge
Licensed, credentialed counselors are available 24 hours a day, seven days a week, 365 days a year by calling Carebridge.
- **Couple and Family Therapy Center in the Falk College:** 315.443.3023, falk.syr.edu/marriage-family-therapy/counseling-therapy-services
Provides individual, couple and family therapy for SU staff, faculty, students and their families.
- **Psychological Services Center:** 315.443.3595, psc.syr.edu
Provides individual, couple and group counseling and therapy.

Off-Campus Resources

- Onondaga Council on Alcoholism Addictions Inc., doing business as Prevention Network: 315.471.1359, preventionnetworkcny.org
Houses a literature and video library on alcohol, tobacco and other drugs (ATOD); provides information on prevention, intervention, treatment, self-help services for ATOD abuse and addiction, and other addictions (e.g., food, sex, and gambling); conducts assessment and referral services; and conducts prevention program development and presentation.

Health Risks

There are serious health risks associated with the use of illicit drugs or the abuse of alcohol. Some of those health risks are summarized below. For more information about the health risks associated with drug or alcohol abuse, or for support or treatment, contact one or more of the available resources listed previously.

Alcohol

Alcohol consumption causes a number of marked changes in behavior. Even low doses significantly impair the judgment and coordination required to drive a car safely, increasing the likelihood that the driver will be involved in an accident. Low to moderate doses also increase the incidence of aggressive acts. Moderate to high doses impair higher mental functions, severely altering the ability to learn and remember information. Very high doses of alcohol can be fatal.

Repeated use of alcohol can lead to dependence. Alcohol withdrawal can result in severe anxiety, tremors, hallucinations and convulsions, which may be life-threatening. Long-term consumption of large quantities of alcohol, particularly when combined with poor nutrition, can lead to permanent damage to vital organs such as the brain, heart, pancreas and liver, as well as the immune system. Drinking too much, on a single occasion or over time, has been linked to cardiomyopathy, stroke, high blood pressure, fibrosis, cirrhosis, pancreatitis and cancer. Alcohol consumption during pregnancy may result in fetal alcohol syndrome, which causes irreversible physical and/or mental abnormalities at birth.

Controlled Substances

The information about the health effects of controlled substances included below comes from the Federal Controlled Substances Act.

Cannabis

Possible Effects: euphoria, relaxed inhibitions, increased appetite, disoriented behavior

Effects of Overdose: fatigue, paranoia, possible psychosis

Withdrawal Syndrome: insomnia, hyperactivity, decreased appetite occasionally reported

Depressants

Possible Effects: slurred speech, disorientation, drunken behavior without odor of alcohol, dizziness, slowed breathing

Effects of Overdose: shallow respiration, clammy skin, dilated pupils, weak and rapid pulse, coma, possible death

Withdrawal Syndrome: anxiety, insomnia, tremors, delirium, convulsions, possible death

Hallucinogens

Possible Effects: illusions and hallucinations, poor perception of time and distance

Effects of Overdose: longer, more intense "trip" episodes, psychosis, respiratory depression or arrest, convulsions, seizures, possible death

Withdrawal Syndrome: withdrawal syndrome not reported

Narcotics

Possible Effects: euphoria, drowsiness, respiratory depression, constricted pupils, nausea

Effects of Overdose: slow and shallow breathing, clammy skin, convulsions, coma, possible death

Withdrawal Syndrome: watery eyes, runny nose, yawning, loss of appetite, tremors, panic, cramps, nausea, chills, sweating, severe depression

Stimulants

Possible Effects: increased alertness, excitement, euphoria, increased pulse rate and blood pressure, loss of appetite

Effects of Overdose: agitation, increase in body temperature, hallucinations, convulsions, possible death

Withdrawal Syndrome: apathy, long periods of sleep, irritability, depression, disorientation

Steroids

Possible Effects: physical changes that may be permanent, muscle growth, altered appearance, mood or behavioral changes, hostility, high cholesterol, stroke, infections

Overdose: overdose not reported

Withdrawal Syndrome: severe depression, sterility, liver damage

Standards of Conduct

Syracuse University makes every effort to provide a safe and healthy environment for all members of our community. Alcohol and drug abuse is a matter of concern for the entire community, regardless of the user's age, as it poses a threat to health and interferes with one's ability to fully participate in the academic community and can create serious problems for the user or other members of the community.

The University's Alcohol, Other Drugs, and Tobacco Policy (policies.syr.edu/policies/university-governance-ethics-integrity-and-legal-compliance/alcohol-other-drugs-and-tobacco-policies) provides an umbrella framework for approaching prevention and intervention, and defines acceptable and unacceptable behaviors with regard to alcohol, other drugs and tobacco. Additional policies and procedures, such as the Student Conduct Code, prohibit illegal use or possession of alcohol or drugs on campus. The University institutes these policies and procedures in order to develop and sustain healthy community-wide norms to address and prevent problems while providing resources for intervention and assistance, in accordance with federal, state and local laws and other mandates.

Syracuse University seeks to provide an environment in which drug and alcohol abuse and tobacco use are not tolerated and do not interfere with the goals of the University as an educational institution and workplace. The University engages in proactive efforts, including the following:

- educating members of the community about policies related to alcohol, other drugs and tobacco, and sanctions used to enforce these policies;
- intervening and providing assistance to those with problems, and encouraging those with problems to seek help;
- offering low-risk social options that support institutional initiatives fostering health and wellness; and
- upon students' request and to the extent reasonably practicable, making alcohol-free living options available.

Illegal Drugs: Manufacturing, distributing, selling, purchasing, possessing and using illegal drugs and drug paraphernalia is prohibited.

Other Drugs: Unlawfully distributing, possessing or using prescription medications, controlled substances or other illegal drugs is prohibited. Improperly using prescription medications, controlled substances or other legal drugs is discouraged. Possessing drug paraphernalia is prohibited.

Alcohol: Abstinence, as an option, is supported and never discouraged. Drinking alcoholic beverages legally and in moderation is accepted. Drinking alcohol excessively is discouraged. Unlawful behaviors involving alcohol, including, but not limited to, underage drinking, public intoxication, drinking and driving, manufacturing, distributing and using false identification are prohibited. Disruptive behavior that creates potential for harm or infringes on the rights of others is prohibited.

Smoking: Syracuse University is a tobacco-free campus. Smoking is prohibited on University-owned, -operated or -controlled property, including, but not limited to, housing and dining facilities, classrooms, offices, computing facilities, laboratories, seminar rooms, libraries, stores, health facilities, restrooms, stairwells, elevators, lobbies and reception areas. Syracuse University's Tobacco-Free Campus Policy can be found here: policies.syr.edu/policies/university-governance-ethics-integrity-and-legal-compliance/tobacco-free-campus-policy.

Syracuse University's full policy on Alcohol, Other Drugs, and Tobacco can be found here: policies.syr.edu/policies/university-governance-ethics-integrity-and-legal-compliance/alcohol-other-drugs-and-tobacco-policies.

Student-Specific Policies and Sanctions

In addition to the Alcohol, Other Drugs, and Tobacco Policy, there are certain conduct standards to which students must adhere, including the Student Conduct Code and Office of Student Living Policies.

Student Conduct Code

Students at Syracuse University are expected to conduct themselves in a manner supportive of the educational mission of the institution. The Student Conduct Code prohibits, among other actions or attempted actions:

- active assistance or participation in, express promotion of, or perpetuation of conduct, including but not limited to bullying of an individual or group, whether engaged in physically, electronically, online, verbally, in writing or via video recording, which (i) was intentional or engaged in with reckless indifference to the foreseeable impact, (ii) was severe or pervasive, and (iii) was reasonably likely to cause physical or mental harm to the individual(s) subjected to it;
- forgery, alteration, fabrication or misuse of University or other official identification cards, records, reports, grades, diplomas, documents, computer files or systems. This includes, without limitation, possession or purchase of falsified identification cards or misrepresentation of any kind to a University office, University official or law enforcement official acting within the scope of their authority.;
- use or possession of alcohol, drugs or drug paraphernalia, in violation of the Syracuse University Policy on Alcohol, Other Drugs and Tobacco or applicable federal, state or local law; and
- purchase, distribution, manufacture or sale of alcohol, drugs or drug paraphernalia, in violation of the Syracuse University Policy on Alcohol, Other Drugs and Tobacco or applicable federal, state or local law.

Ignorance of the Code and/or acts committed under the influence of alcohol or drugs do not diminish one's responsibility.

The complete Student Conduct Code is available here:

experience.syracuse.edu/community-standards/conduct-handbook/code-of-student-conduct.

Residential Living Standards

The theme of residential life focuses on personal responsibility and cooperation in building the community. To enhance this growth of community, the Office of Student Living requires that all students residing on both North and South campuses be familiar with, and abide by, the Student Conduct Code, Residential Policies and the policies outlined in the Terms and Conditions of Student Housing. Students have the right and responsibility to participate in the creation of community standards for the community in which they live.

Because students are responsible for community standards within their living environments, they have the responsibility to participate in regular, ongoing conversations within their communities to discuss issues and events, including support for making healthy choices in relation to alcohol and other drugs.

- Alcohol
 - Students who are under 21 years of age may not be in the presence of alcohol, unless assigned to reside in a space in which one's roommate is 21 years of age or older.
 - Students who are under the age of 21 are not permitted to store or display empty alcohol containers (bottles, cans, etc.) in their residence hall room/apartment.
 - Alcohol paraphernalia that is associated with high-risk drinking behavior, including, but not limited to, wine and/or beer bottles, beer pong tables, funnels and shot glasses is prohibited.
- Illicit Drugs
 - Students' presence in locations in which illicit drugs are being used is prohibited. Marijuana use, including for medicinal purposes, is prohibited on campus.

Student Sanctions

Students and registered student organizations found responsible for violating University policies governing alcohol and drug use will receive both a University status sanction as well as one or more educational or developmental sanctions.

The University issues the following sanction guidelines for substance abuse-related violations:

Category	First Violation	Second Violation	Third Violation
Use, possession or purchase of alcohol under prohibited circumstances	Amnesty Conduct Warning and educational activities including community involvement referral and/or educational project(s)	Conduct Probation and educational activities including: Options Program referral and Community Involvement referral and/or other educational project(s)	Suspension
Supplying alcohol to underage person(s)	Conduct Probation and educational activities including community involvement referral, community service, and/or educational project(s)	Suspension	Suspension or expulsion
Extreme alcohol intoxication posing a substantial risk to the health and well-being of self and/or others	Amnesty Conduct Warning and educational activities including Options Program referral and educational assignments	Conduct Probation and educational activities including Options Program referral, community involvement referral, and/or other educational project(s) Residential Relocation	Suspension
Manufacture or sale of alcohol under prohibited circumstances	Conduct Probation and educational activities including community involvement referral, community service, and/or educational project(s)	Suspension	Suspension or expulsion
Driving any motor vehicle while intoxicated or while under the influence of unlawful drugs	Conduct Probation and referral to Substance Abuse Counselors Program	Suspension or expulsion	Expulsion
Use or possession of marijuana or marijuana paraphernalia	Amnesty Conduct Warning and educational activities including Options Program referral, community involvement referral, community service, and/or other educational project(s)	Conduct Probation and educational activities including Options Program referral, community involvement referral, community service, and/or other educational project(s)	Suspension
Use or possession of illegal drugs other than marijuana or controlled substances without an appropriate prescription	Conduct Probation and educational activities including Options Program referral, community involvement referral, community service, and/or other educational project(s) Suspension	Suspension	Suspension or expulsion
Extreme drug intoxication or abuse-related behavior posing a substantial risk to the health and well-being of self and/or others	Conduct Probation and educational activities including Options Program referral, community involvement referral, and/or other educational project(s) Residential relocation	Suspension	Suspension of two (2) semesters or greater
Manufacture, sale, purchase or distribution of illegal drugs or controlled substances	Suspension or expulsion	Expulsion	Not applicable
Manufacture, sale, purchase or distribution of marijuana or marijuana paraphernalia	Conduct Probation with educational activities or suspension	Suspension	Expulsion

Employee-Specific Policies and Sanctions

In addition to the Alcohol, Other Drugs, and Tobacco Policy, there are certain conduct standards to which employees must adhere.

Syracuse University prohibits the unlawful manufacture, distribution, sale, purchase, possession or use of any drugs or controlled substances or drug paraphernalia along with the unlawful service, distribution, sale, possession, consumption or other unlawful use of alcoholic beverages by its employees on its owned, operated or controlled property. Employees who violate the *Employee Anti-Drug and Alcohol Abuse policy* will be subject to appropriate disciplinary action, which may include counseling, mandatory participation in an appropriate rehabilitation program, a warning, placement on strict probation, unpaid suspension from employment, termination of employment and/or referral to the proper law enforcement authorities for prosecution.

Syracuse University is required by the Drug-Free Workplace Act of 1988 to take steps toward maintaining a drug-free workplace. Any employee engaged in the unlawful manufacture, distribution, dispensation, possession or use of controlled substances in the workplace will be subject to discipline, up to and including discharge. The University will weigh all relevant facts and circumstances in reaching a decision to discipline; the University retains the right to require that a covered employee who engages in prohibited conduct participate in, and successfully complete, a drug abuse assistance or rehabilitation program. Covered employees must report to the University Office of Human Resources within five days of any criminal conviction for a workplace drug violation.

Applicants for employment may be required to submit to and pass a drug test as a condition of employment. Employees may also be required to submit to random or periodic drug or alcohol testing at the discretion of the University or department.

Legal Sanctions

In addition to the University standards and sanctions on alcohol and other drug abuse set forth above, members of the campus community are also required to abide by state and federal laws governing consumption, sale or possession of alcohol and other drugs.

New York Law

Drugs

New York criminal and public health statutes capture a wide range of offenses and penalties for possessing, abusing or distributing controlled substances and other drugs.

“Controlled substance” means any substance listed in schedule I, II, III, IV or IV of Section 3306 of the public health law. This includes, but is not limited to, methamphetamine, heroin, cocaine base, PCP, LSD, Fentanyl, Fentanyl analogue.

Penalties for violating these laws range from minor fines to life in prison.

Alcohol

Alcohol offenses and penalties in New York state are defined by the Alcoholic Beverage Control Law and Penal Law. They include possession with intent to consume while under age 21, driving while intoxicated, furnishing alcohol to a person under age 21, selling alcohol to an intoxicated person or providing false identification. The four acceptable forms of ID for alcohol service in New York state are a driver's license, a non-driver's ID, a military ID or a passport. In addition, New York State General Obligations Law imposes personal injury liability for damages resulting from furnishing alcohol to persons under age 21 or selling alcohol to an intoxicated person. The City of Syracuse prohibits the consumption of alcohol, or the possession of an open container with intent to consume, in any public place, or on private property without the owner's permission.

Penalties for violating these laws range from minor fines for underage possession, to revocation of drivers' licenses, and even jail time, for driving while intoxicated.

Federal Law

Possession, use or distribution of Controlled Substances is prohibited by federal law. Controlled Substances include, for example, heroin, lysergic acid diethylamide (LSD), marijuana (cannabis), 3,4-methylenedioxymethamphetamine (MDMA or ecstasy), cocaine, methamphetamine, and certain steroids and prescription drugs. Federal penalties for possessing, using, or distributing Controlled Substances often include fines and prison sentences.

In addition, the Higher Education Act of 1998 (20 U.S.C. §1091) provides that a student's eligibility for federal student aid be suspended upon conviction under federal or state law for any offense involving the possession or sale of a controlled substance (other than alcohol or tobacco) for as much as one year, to an indefinite period of time. Eligibility may be regained upon completion of a drug rehabilitation program that meets statutory and regulatory requirements or if the conviction is overturned.

Federal Trafficking Penalties

Drug/Schedule	Quantity	Penalties
Cocaine (Schedule II)	5 kilograms or more mixture	First Offense: Not less than 10 years, and not more than life. If death or serious injury, not less than 20 or more than life. Fine of not more than \$10 million if an individual, \$50 million if not an individual. Second Offense: Not less than 15 years, and not more than life. If death or serious injury, life imprisonment. Fine of not more than \$20 million if an individual, \$75 million if not an individual. Two or More Prior Offenses: Not less than 25 years. Fine of not more than \$20 million if an individual, \$75 million if not an individual.
Cocaine Base (Schedule II)	280 grams or more mixture	
Fentanyl (Schedule II)	400 grams or more mixture	
Fentanyl Analogue (Schedule I)	100 grams or more mixture	
Heroin (Schedule I)	1 kilogram or more mixture	
LSD (Schedule I)	10 grams or more mixture	
Methamphetamine (Schedule II)	50 grams or more pure or 500 grams or more mixture	
PCP (Schedule II)	100 grams or more pure or 1 kilogram or more mixture	
Cocaine (Schedule II)	500-4999 grams	First Offense: Not less than 5 years, and not more than 40 years. If death or serious injury, not less than 20 or more than life. Fine of not more than \$5 million if an individual, \$25 million if not an individual. Second Offense: Not less than 10 years, and not more than life. If death or serious injury, life imprisonment. Fine of not more than \$8 million if an individual, \$50 million if not an individual.
Cocaine Base (Schedule II)	28-279 grams mixture	
Fentanyl (Schedule II)	40-399 grams mixture	
Fentanyl Analogue (Schedule I)	10-99 grams mixture	
Heroin (Schedule I)	100-999 grams mixture	
LSD (Schedule I)	1-9 grams mixture	
Methamphetamine (Schedule II)	5-49 grams pure or 50-499 grams mixture	
PCP (Schedule II)	10-99 grams pure or 100-999 grams mixture	
Other Schedule I & II drugs (and any drug product containing Gamma-Hydroxybutyric Acid)	Any amount	First Offense: Not more than 20 years. If death or serious injury, not less than 20 years, or more than life. Fine \$1 million if an individual, \$5 million if not an individual. Second Offense: Not more than 30 years. If death or serious bodily injury, life imprisonment. Fine \$2 million if an individual, \$10 million if not an individual.
Flunitrazepam (Schedule IV)	1 gram	
Other Schedule III drugs	Any amount	First Offense: Not more than 10 years. If death or serious injury, not more than 15 years. Fine not more than \$500,000 if an individual, \$2.5 million if not an individual. Second Offense: Not more than 20 years. If death or serious injury, not more than 30 years. Fine not more than \$1 million if an individual, \$5 million if not an individual.
All other Schedule IV drugs	Any amount	First Offense: Not more than 5 years. Fine not more than \$250,000 if an individual, \$1 million if not an individual. Second Offense: Not more than 10 years. Fine not more than \$500,000 if an individual, \$2 million if other than an individual.
Flunitrazepam (Schedule IV)	Other than 1 gram or more	
All Schedule V drugs	Any amount	First Offense: Not more than one year. Fine not more than \$100,000 if an individual, \$250,000 if not an individual. Second Offense: Not more than four years. Fine not more than \$200,000 if an individual, \$500,000 if not an individual.

Federal Trafficking Penalties (continued)

Drug	Quantity	First Offense	Second Offense
Marijuana (Schedule I)	1,000 kilograms or more marijuana mixture; or 1,000 or more marijuana plants	Not less than 10 years, or more than life. If death or serious bodily injury, not less than 20 years, or more than life. Fine not more than \$10 million if an individual, \$50 million if other than an individual.	Not less than 15 years, or more than life. If death or serious bodily injury, life imprisonment. Fine not more than \$20 million if an individual, \$75 million if other than an individual.
Marijuana (Schedule I)	100 to 999 kilograms marijuana mixture; or 100 to 999 marijuana plants	Not less than 5 years, or more than 40 years. If death or serious bodily injury, not less than 20 years, or more than life. Fine not more than \$5 million if an individual, \$25 million if other than an individual.	Not less than 10 years, or more than life. If death or serious bodily injury, life imprisonment. Fine not more than \$8 million if an individual, \$50 million if other than an individual.
Marijuana (Schedule I)	More than 10 kilograms hashish; 50 to 99 kilograms marijuana mixture More than 1 kilograms of hashish oil; 50 to 99 marijuana plants	Not more than 20 years. If death or serious bodily injury, not less than 20 years, or more than life. Fine \$1 million if an individual, \$5 million if other than an individual.	Not more than 30 years. If death or serious bodily injury, life imprisonment. Fine \$2 million if an individual, \$10 million if other than an individual.
Marijuana (Schedule I)	Less than 50 kilograms marijuana (but does not include 50 or more marijuana plants regardless of weight); 1 to 49 marijuana plants	Not more than five years. Fine not more than \$250,000, \$1 million if other than an individual.	Not more than 10 years. Fine \$500,000 if an individual, \$2 million if other than individual.
Hashish (Schedule I)	10 kilograms or less		
Hashish Oil (Schedule I)	1 kilogram or less		

The minimum sentence for a violation after two or more prior convictions for a felony drug offense have become final is not less than 25 years imprisonment and a fine up to \$20 million if an individual and \$75 million if other than an individual.
